18 Daily & Weekly Store Manager Checklists

01. Quick-Start: Your First 15 Minutes as Admin

Welcome to the ZaDa Foods Operations Console! You can manage your entire e-commerce store—adding fresh spices, fulfilling customer orders, adjusting stock, and creating discount coupons—without writing a single line of code.

> **The 4 Simple Daily Tasks of a Store Manager:**
>
> 1. **Check Pending Orders:** Confirm customer orders placed overnight and print packing slips.
> 2. **Handover Parcels to Courier:** Paste the Courier Tracking Number (AWB) so the customer tracks their delivery live.
> 3. **Review Stock Levels:** Check if fast-moving spices or banana chips need small-batch replenishment.
> 4. **Respond to WhatsApp/Enquiries:** Chat with wholesale buyers and assist customers directly on WhatsApp (+91 75939 59235).

02. Signing In & Navigation Menu Tour

To access the console, navigate to `/login` or `/admin`. Enter your authorized administrator email address and password.

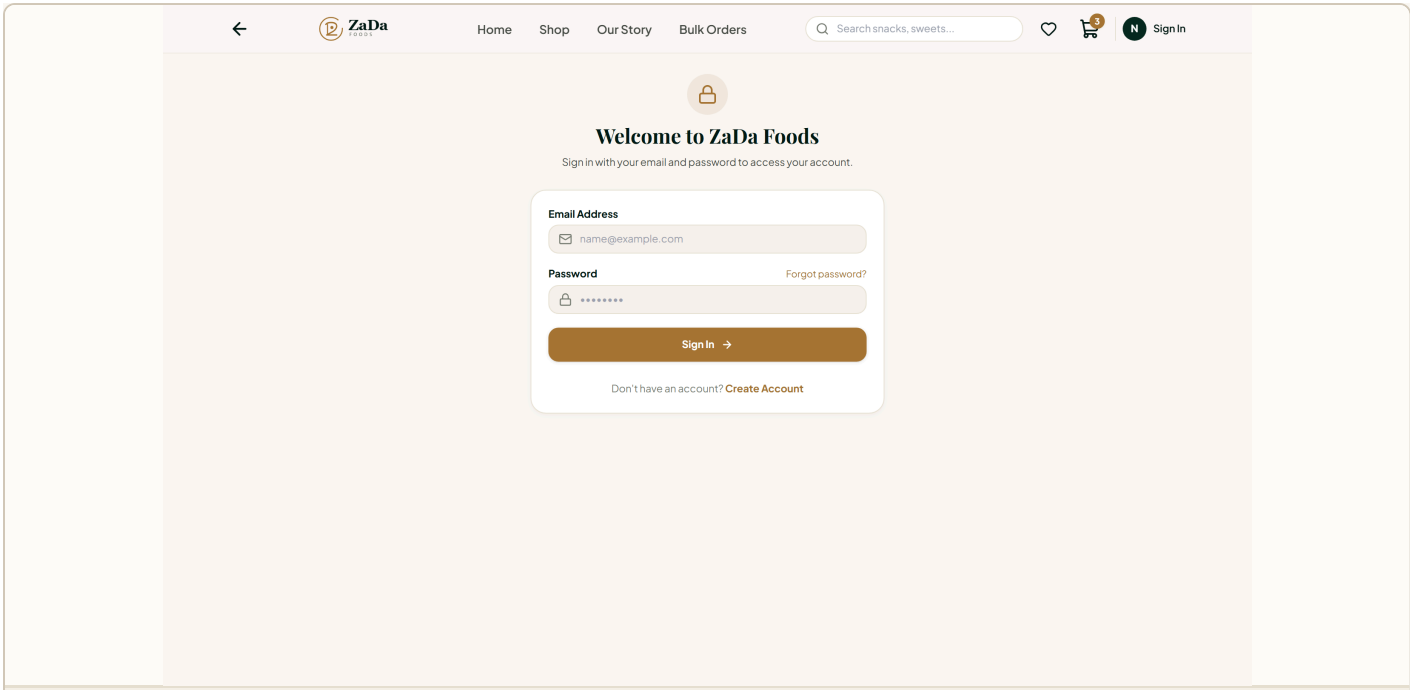

Figure 2.1: Sign In portal for administrators and staff.

1 **Enter Admin Credentials**

Type your store management email (e.g. `admin@zadafoods.com`) and secure password. Click **"Sign In"**.

2 **Automatic Role Routing**

The system verifies your administrative privileges and automatically redirects you directly into the **Operations Console**. Ordinary customers are strictly prohibited from this section.

03. Operations Dashboard & Real-Time Metrics

The Dashboard provides an instant snapshot of your store's commercial and fulfillment health.

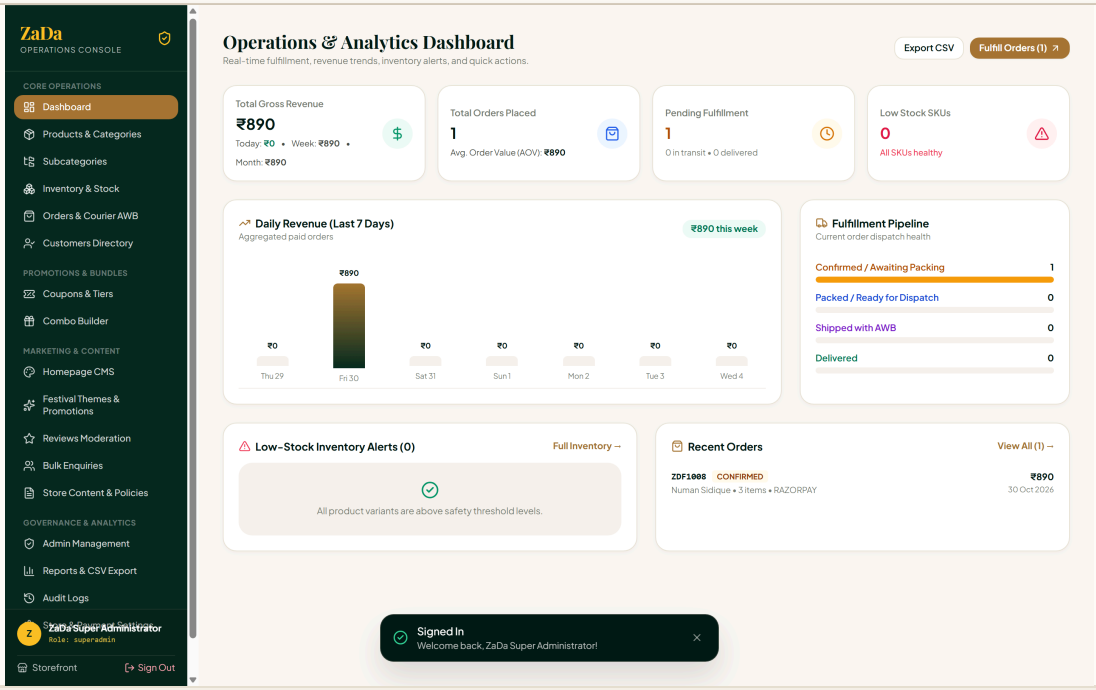

Figure 3.1: Operations Dashboard showing gross revenue, gross orders, pending fulfillment counter, and quick action shortcuts.

Dashboard Card	What It Means	Recommended Action
Gross Revenue (₹)	Total successful sales generated across online payments and verified COD orders.	Monitor weekly sales growth and campaign effectiveness.
Total Orders	All customer orders placed in the system.	Check order volume trends over time.
Pending Fulfillment (ACTION REQUIRED **)**	Orders that have been confirmed and paid but are waiting to be packed and dispatched.	Click **"Fulfill Orders"** immediately to process parcels.
Low Stock Items (WARNING **)**	Products with fewer than 10 units remaining in warehouse inventory.	Click **"Full Inventory"** to restock before items sell out.

04. Managing Products & Weight Variants

The Product Catalogue is where you add new products, edit descriptions, adjust retail prices, configure pack sizes (variants), and manage promotional badges.

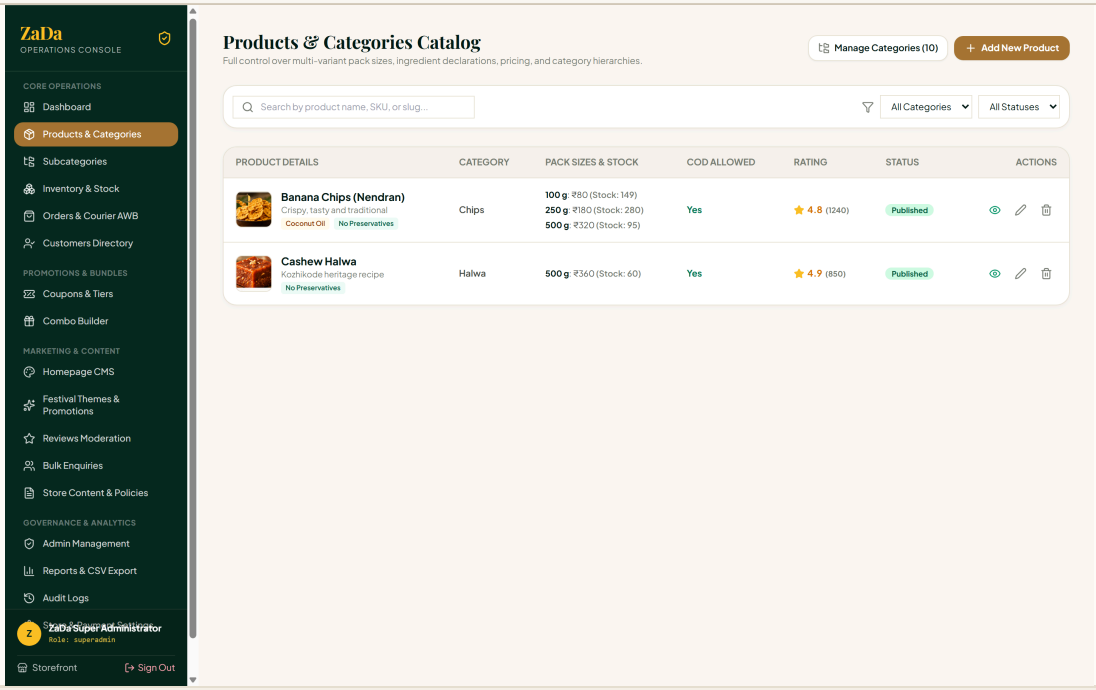

Figure 4.1: Product catalogue table showing search bar, category filters, variant details, and Edit/Delete buttons.

How to Add a Brand New Product (Step-by-Step):

1 **Click "+ Add Product"**

Located at the top right of the Products page. A modal form will appear.

2 **Enter Product Basic Info**

Provide the **Product Title** (e.g. *"Wayanad Black Pepper (Whole Bold)"*), select the **Parent Category** (e.g. *Spices & Blends*) and **Subcategory** (e.g. *Whole Spices*).

3 **Add High-Resolution Image URLs**

Paste your product photo URL. Clean, well-lit photos on ivory or white backgrounds work best for high conversion.

4 **Configure Pack Sizes & Variants**

Click **"+ Add Variant"** to specify pack sizes:

- **Weight Label:** e.g. `250g`, `500g`, or `1kg`
- **Selling Price (₹):** The actual discounted price the customer pays (e.g. ₹280)
- **MRP (Crossed-out Price ₹):** e.g. ₹320 (shows customers savings)
- **Initial Stock Quantity:** e.g. 50 units

5 **Assign Promotional Badges (Optional)**

Pick a badge: *"Bestseller"*, *"Pure Malabar Spices"*, or *"Traditional"* to make the product stand out on the shop page.

6 **Click "Save Product"**

The item is instantly published live on your storefront!

Publish vs Delete:
If an item is temporarily seasonal or out of stock, click the **Eye Icon** to hide it from customers without deleting your descriptions or photos. Only use the **Trash Can** if a product is discontinued permanently.

05. Organizing Categories & Subcategories

ZaDa Foods utilizes an intuitive 2-level hierarchy to help customers explore products effortlessly.

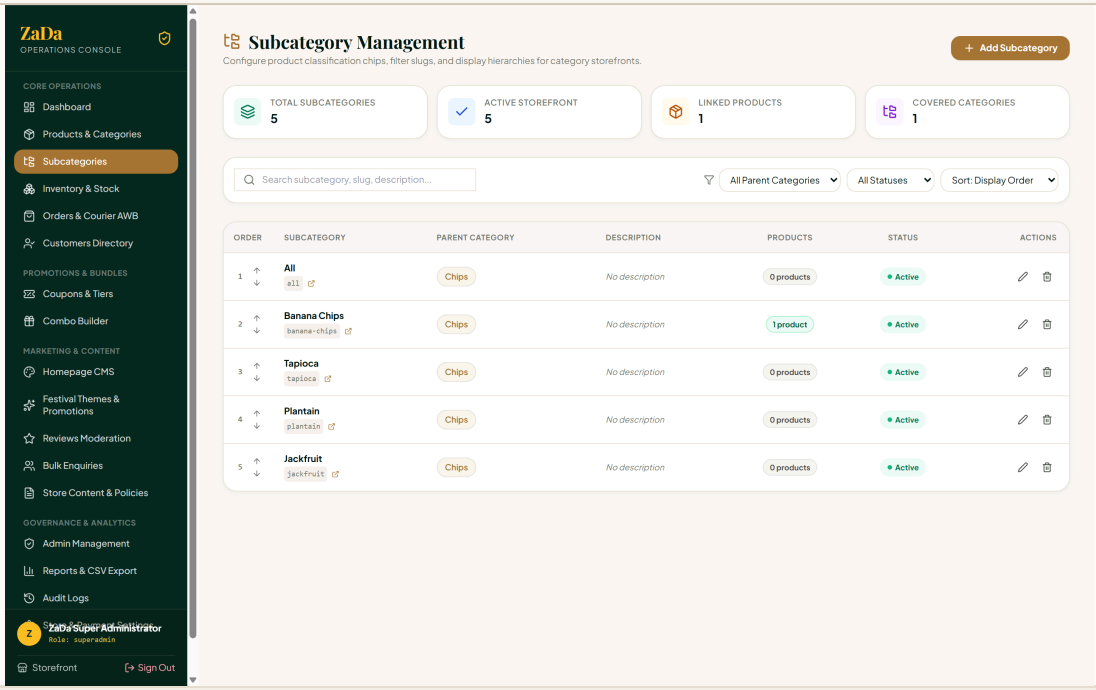

Figure 5.1: Categories and Subcategories management table.

The Recommended Store Structure:

- **Spices & Blends (Parent):**
  - *Whole Spices:* Tellicherry Black Pepper, Green Cardamom, Cloves, Cinnamon.
  - *Ground Spices:* Kashmiri Chilli Powder, Malabar Turmeric, Coriander.
  - *Traditional Masalas:* Kerala Fish Curry Masala, Sambar Powder, Rasam Podi.
- **Traditional Ingredients & Essentials (Parent):**
  - Pure Cold-Pressed Coconut Oil, Malabar Tamarind (Kudampuli), Uruli-roasted salt seasonings.
- **Authentic Kerala Snacks (Parent):**
  - Traditional Nendran Banana Chips (Coconut Oil Fried), Spicy Banana Chips, Sharkara Upperi (Jaggery-coated).

1 **Adding a New Subcategory**

Click **"+ Add Subcategory"**. Select the parent category, type the subcategory title, and upload a thumbnail icon.

06. Inventory Management & Low-Stock Alerts

The Inventory console keeps your physical warehouse in perfect sync with what customers see online, preventing accidental overselling.

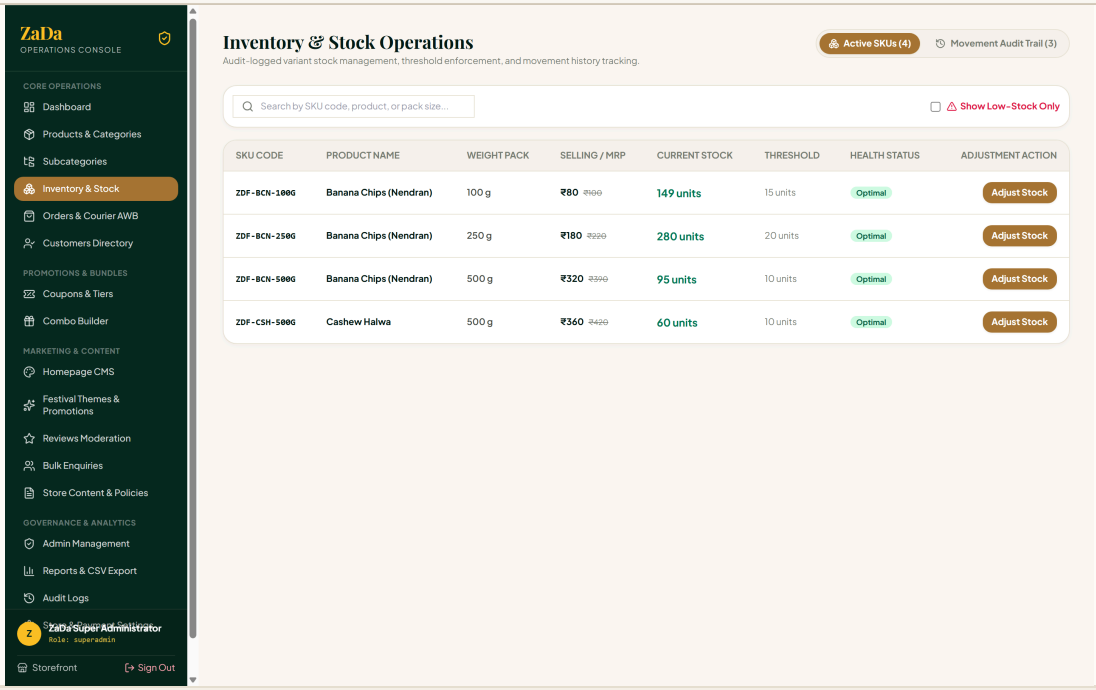

Figure 6.1: Real-time inventory grid with stock status badges and quick stock adjustment controls.

Understanding Stock Status Indicators:

Indicator Badge	Stock Range	Customer Storefront Experience
IN STOCK	11+ units	Green badge "In Stock — Fresh Batch Ready". Customers can add to bag freely.
LOW STOCK	1 to 10 units	Urgency alert: "*Only X left in stock!*" Encourages immediate checkout.
OUT OF STOCK	0 units	"Add to Bag" button is automatically disabled. Protects you from taking orders you cannot fulfill.

How to Update Stock in 3 Clicks:

1. **Find the Product Variant**

   Search by product title or SKU (e.g. `WBP-500G`) in the search bar.

2. **Click "Adjust Stock"**

   Choose your action:
   - **ADD:** e.g. Received a new batch of 30 packets. Type `30`.
   - **DEDUCT:** e.g. 2 packs damaged or used for store tasting. Type `2`.
   - **OVERRIDE:** e.g. Counted physical stock and there are exactly 45 packets. Type `45`.

3. **Select Reason & Confirm**

   Choose reason: *Purchase Order, Restock, Correction, or Damaged*. Click **"Save Adjustment"**. The website updates immediately.

07. Fulfilling Orders & Dispatching Courier AWBs

The Order Management console is your fulfillment command center. Here you review incoming orders, verify payments, print invoices, and update delivery tracking.

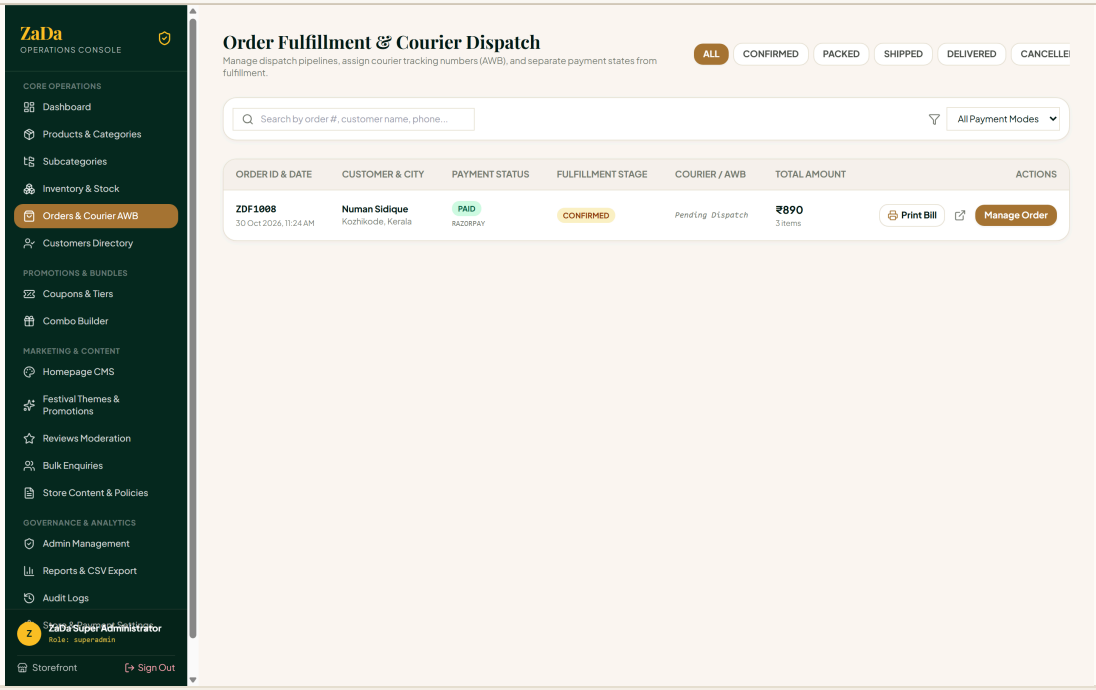

Figure 7.1: Order Management screen showing status tabs, customer details, and the courier update drawer.

The Complete 5-Stage Order Lifecycle:

Status	Meaning	What the Manager Does
PENDING	Order placed, awaiting confirmation	Verify payment. For WhatsApp assisted orders, confirm via chat.
CONFIRMED	Payment verified (Razorpay or COD Advance)	Print invoice/packing slip and send to the packing team.
PACKED	Items packed in sealed food-grade carton	Attach shipping address label and prepare for courier pickup.
SHIPPED	Handed over to courier partner	**Enter Courier Name & AWB Tracking Number.** Status updates for customer.
DELIVERED	Successfully delivered to customer's door	For COD orders, verify doorstep balance was collected.

How to Dispatch an Order (Step-by-Step):

1 Click on the Order Row

Opens the Order Details drawer displaying item list, weights, customer phone, and shipping address.

2 Select Courier Partner

Select your courier from the dropdown: *DTDC Express, Delhivery, India Post, Blue Dart, or Professional Couriers*.

3 Paste the AWB Tracking Number

Enter the Air Waybill (AWB) number provided on the courier receipt (e.g. `DEL123456789IN`).

4 Set Status to "SHIPPED" & Save

Click **"Update Order"**. The customer's live tracking link is immediately updated with courier tracking.

08. Customer Directory & Lifetime Spend

Access your customer list to see loyal buyers, total orders placed, and contact details.

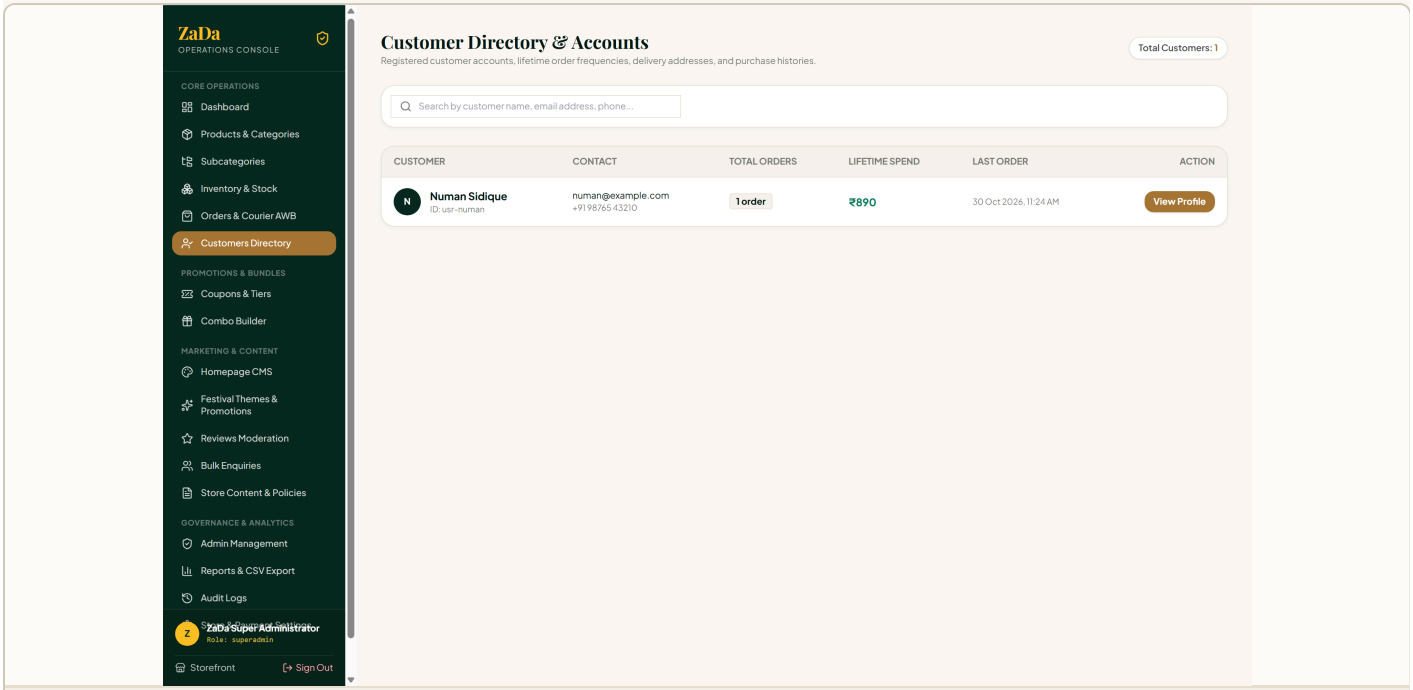

Figure 8.1: Customer Directory displaying registered names, verified phones, order count, and lifetime value.

09. Coupons, Discounts & Automatic Pricing Rules

Create attractive promotional offers to boost festival sales and reward first-time visitors.

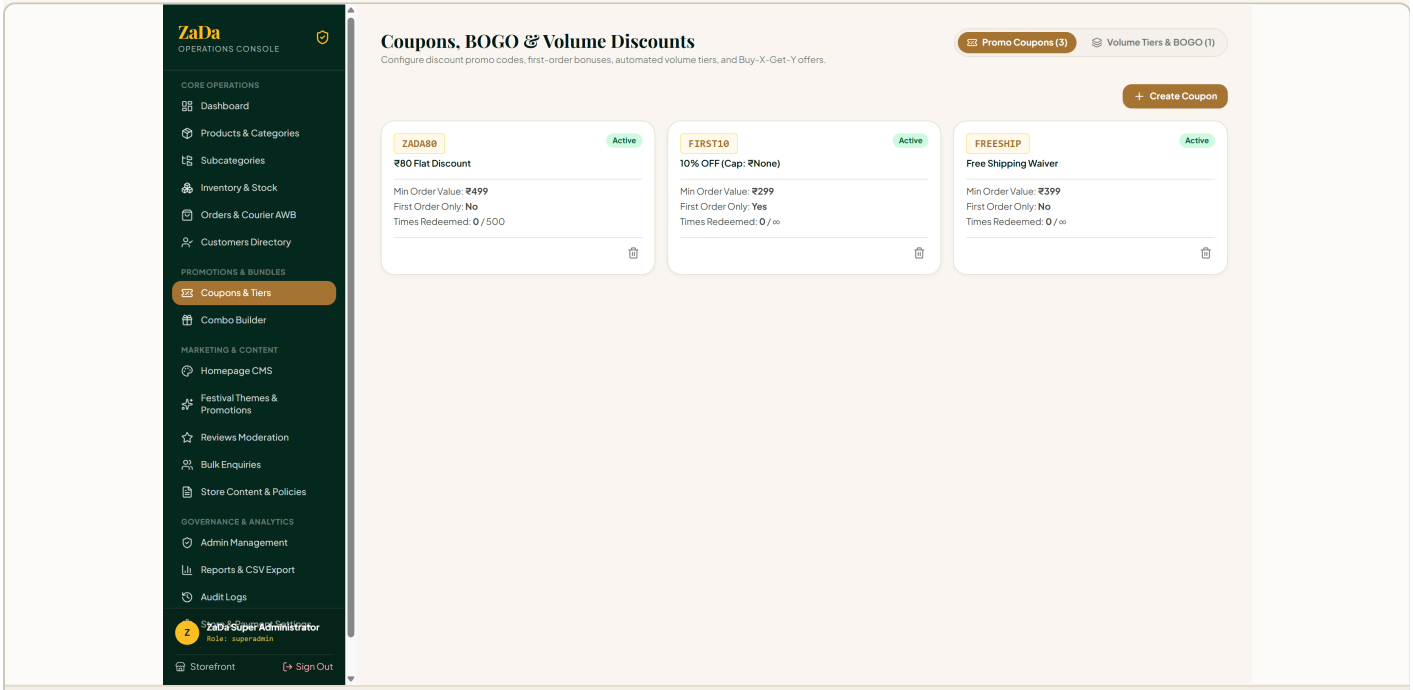

Figure 9.1: Coupons and discount rules table.

1

Creating a New Coupon Code

Click **"+ Create Coupon"**.

- **Coupon Code:** e.g. `FESTIVE15` or `WELCOME50` (uppercase, no spaces).
- **Discount Type:** *Percentage (%)* (e.g. 15% off) or *Flat (₹)* (e.g. ₹50 off).
- **Minimum Order Value:** e.g. ₹499 (customer must have ₹499 in cart to apply).
- **Maximum Discount Cap:** e.g. ₹150 (prevents massive losses on huge orders).
- **First Order Only:** Toggle on if this is exclusively a welcome gift for new buyers.
- **Expiry Date:** Set when the promotion ends.

10. Building Combo Packs & Gift Bundles

Combo packs encourage customers to buy multiple spices together, increasing your Average Order Value (AOV).

Figure 10.1: Combo Builder module for assembling multi-item gift sets.

11. Homepage CMS: Editing Hero Banners & Strips

Keep your storefront fresh! Change homepage hero banners, promotional texts, and button links anytime without needing a developer.

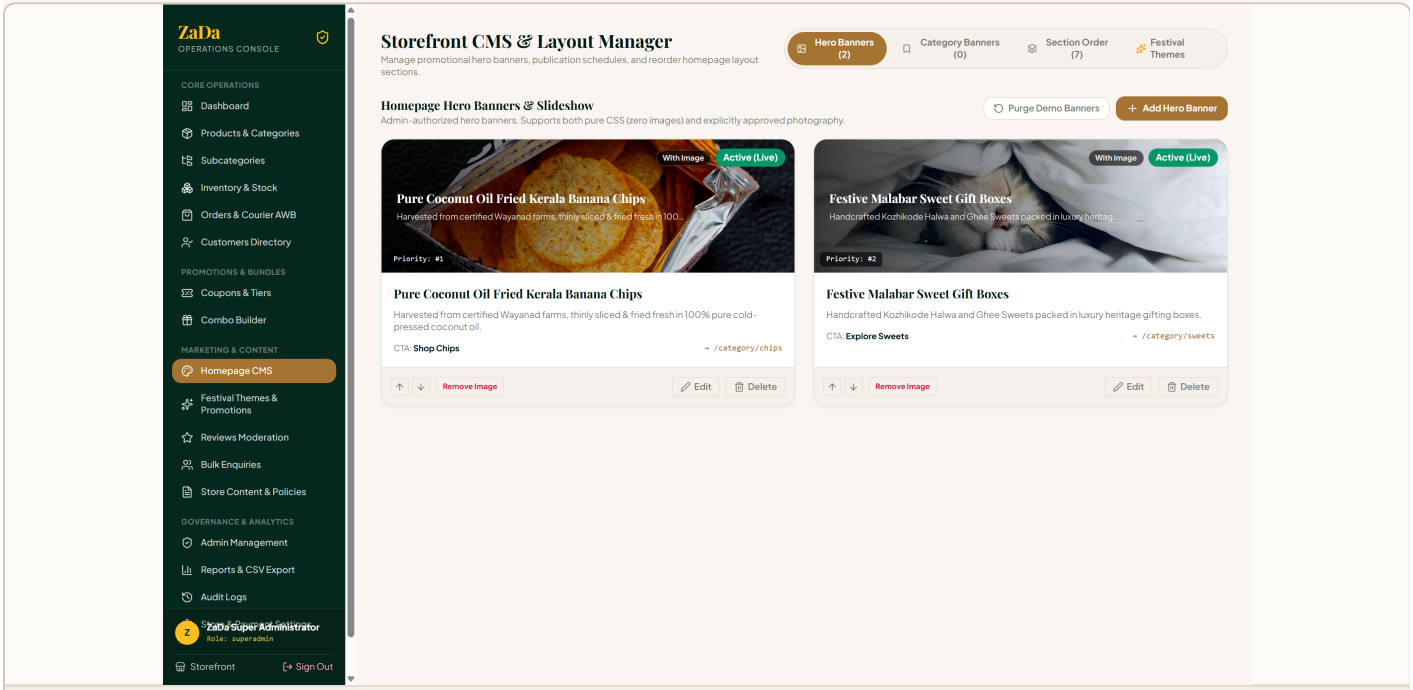

Figure 11.1: Content Management System for editing banners, promo strips, and button links.

Hero Banner Best Practices:

- **Recommended Dimensions:** 1920 × 800 pixels (desktop) or clean horizontal landscape photos.
- **Text Overlay:** Keep headings short (3–6 words, e.g. "*Freshly Ground Malabar Spices*").
- **Button Link:** Point to `/shop` or a specific category such as `/category/spices`.

12. Activating Festival Themes (Onam, Diwali, etc.)

Celebrate Kerala and Indian festivals! Transform your storefront atmosphere with 1-click festive themes.

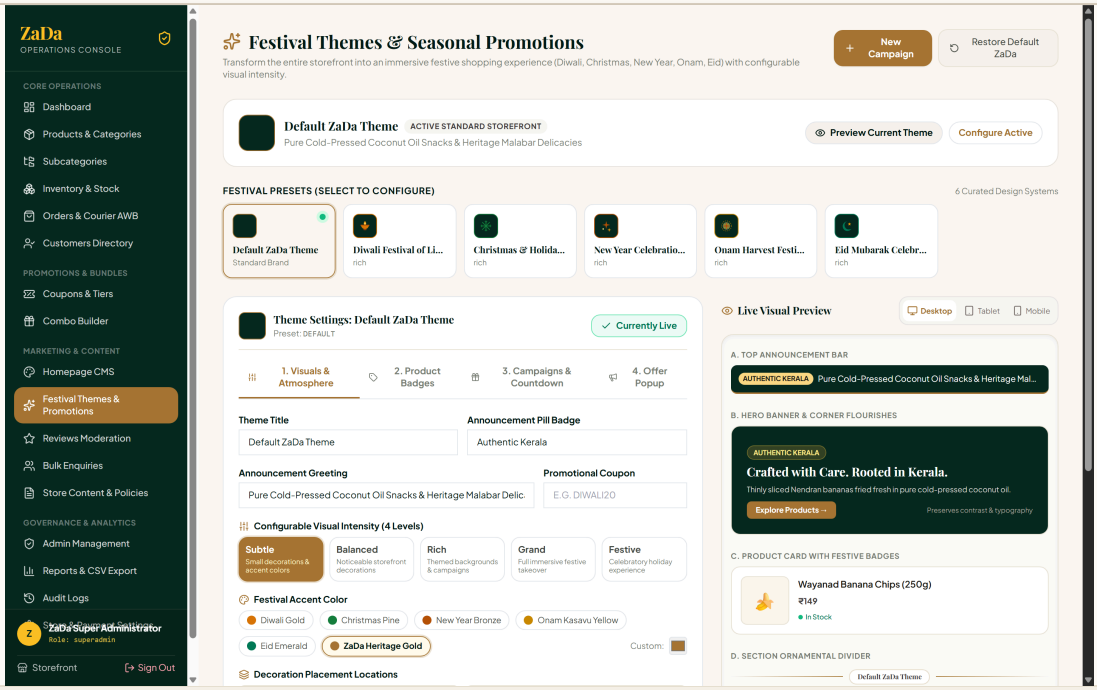

Figure 12.1: Festival Themes dashboard for seasonal theme activation and countdown popups.

1 **Pick a Festival Campaign**

Choose from *Onam Grand Celebration, Vishu Kani, Diwali Festival of Lights, or Christmas / New Year*.

2 **Click "Activate Theme"**

The storefront instantly applies festive gold ribbons, themed promotional banners, and holiday countdown timers.

3 **Deactivate When Festival Concludes**

Click **"Deactivate"** to seamlessly revert the website to the classic ZaDa Foods ivory and green heritage branding.

13. Moderating Customer Product Reviews

Maintain brand credibility by moderating customer feedback before it appears publicly on product pages.

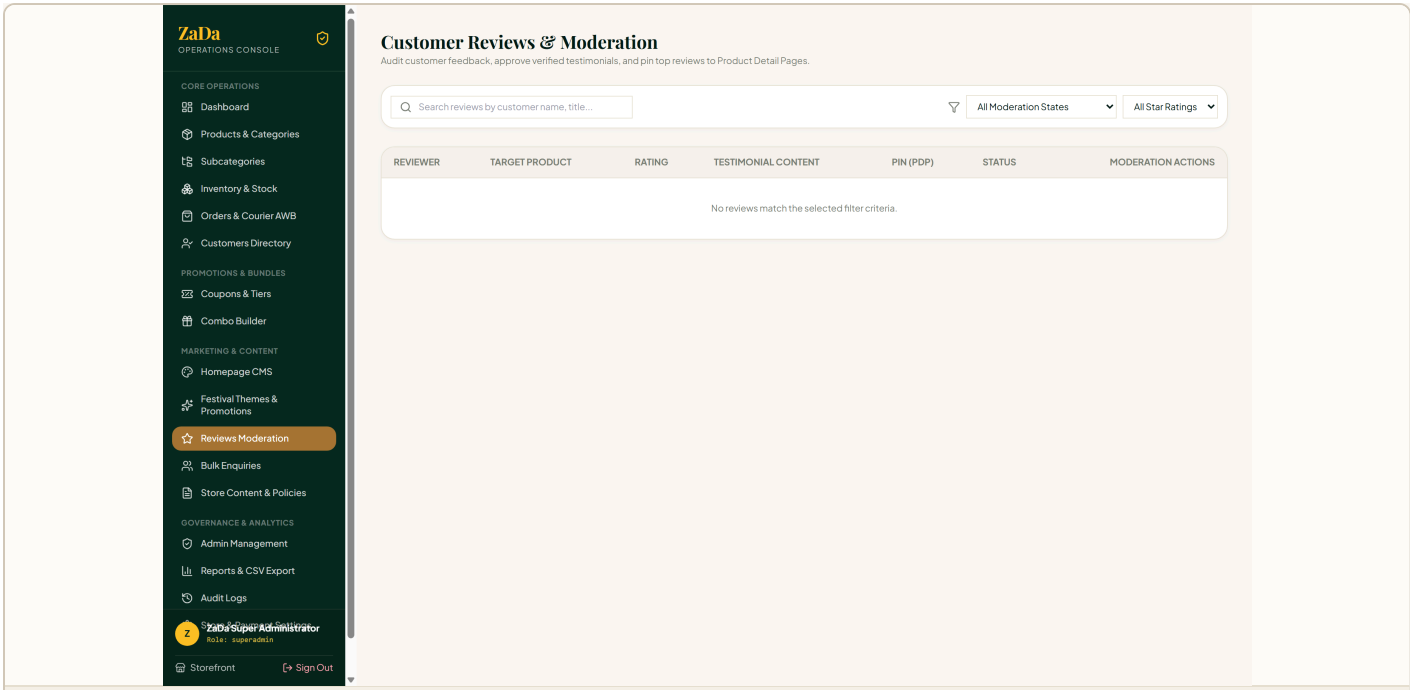

Figure 13.1: Review Moderation Queue showing user ratings, comments, and Approve/Reject buttons.

14. Handling Wholesale & Bulk Order Enquiries

Catering businesses, restaurants, and wedding planners often require bulk quantities (>15 kg). Their inquiries arrive directly in this inbox.

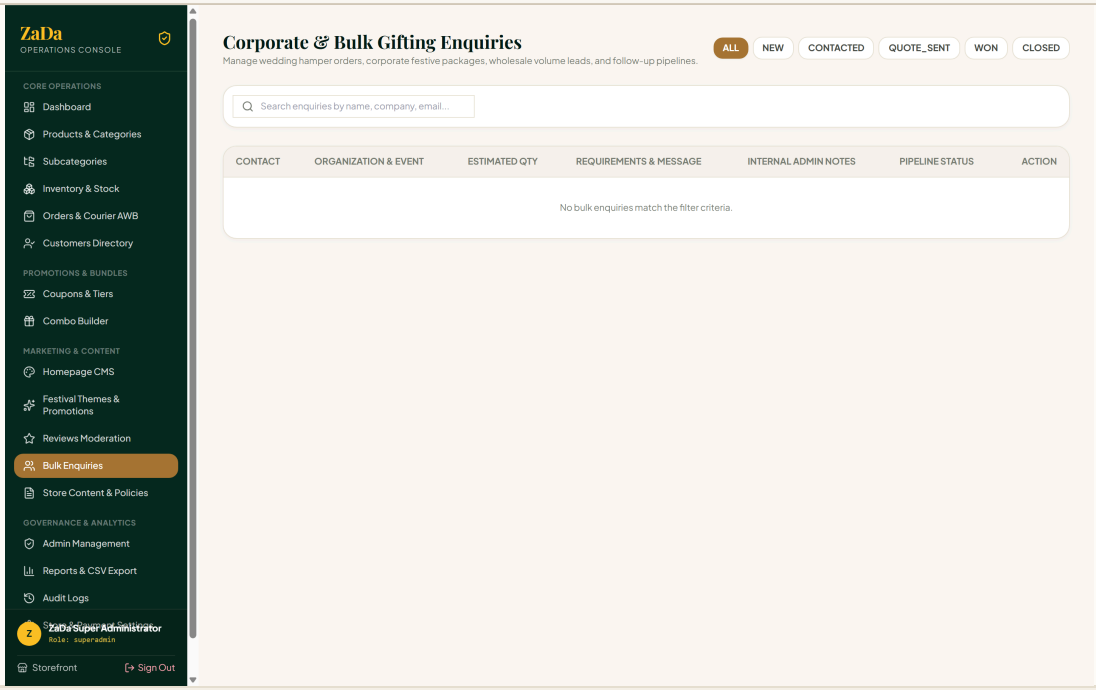

Figure 14.1: Wholesale and bulk inquiries management screen.

15. Sales Reports & Accounting CSV Data Export

Download your complete financial records with one click for bookkeeping, GST calculations, and sales analysis.

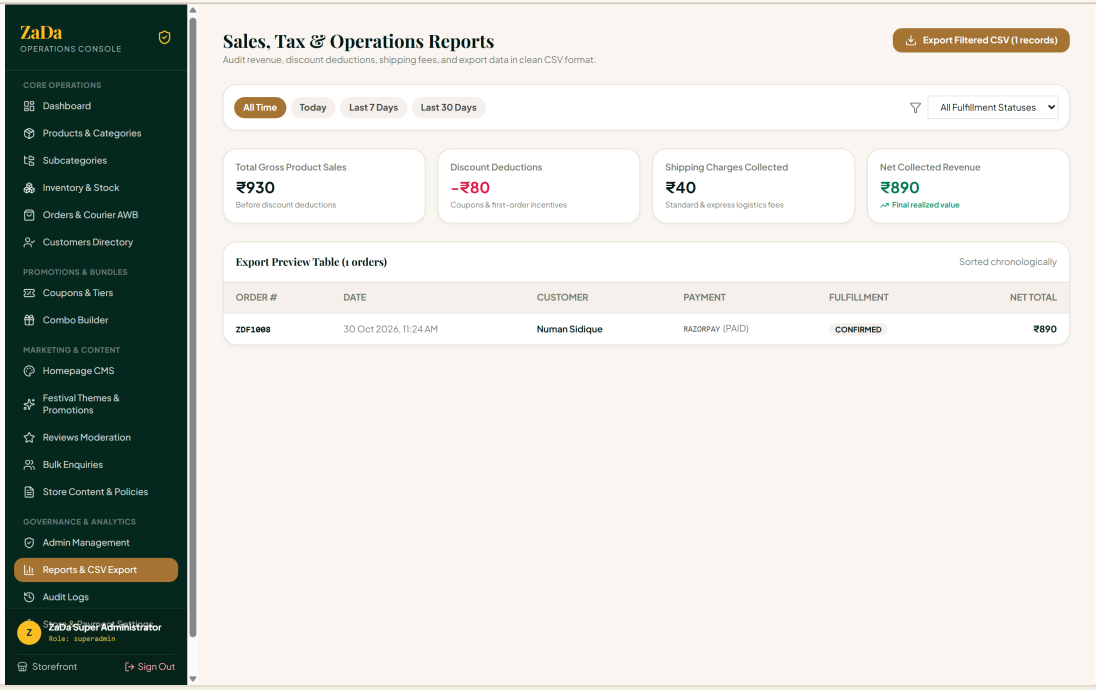

Figure 15.1: Reports module showing monthly revenue charts and CSV export triggers.

How to Export for Accounting:
Click **"Export Orders CSV"**. Open the downloaded file in Microsoft Excel or Google Sheets. It includes Order Numbers, Dates, Customer Names, Items, Quantities, Taxes, Shipping Fees, and Payment Modes.

16. Staff Admin Users & Permission Roles

Safely grant dashboard access to your team without sharing your master Super Admin password.

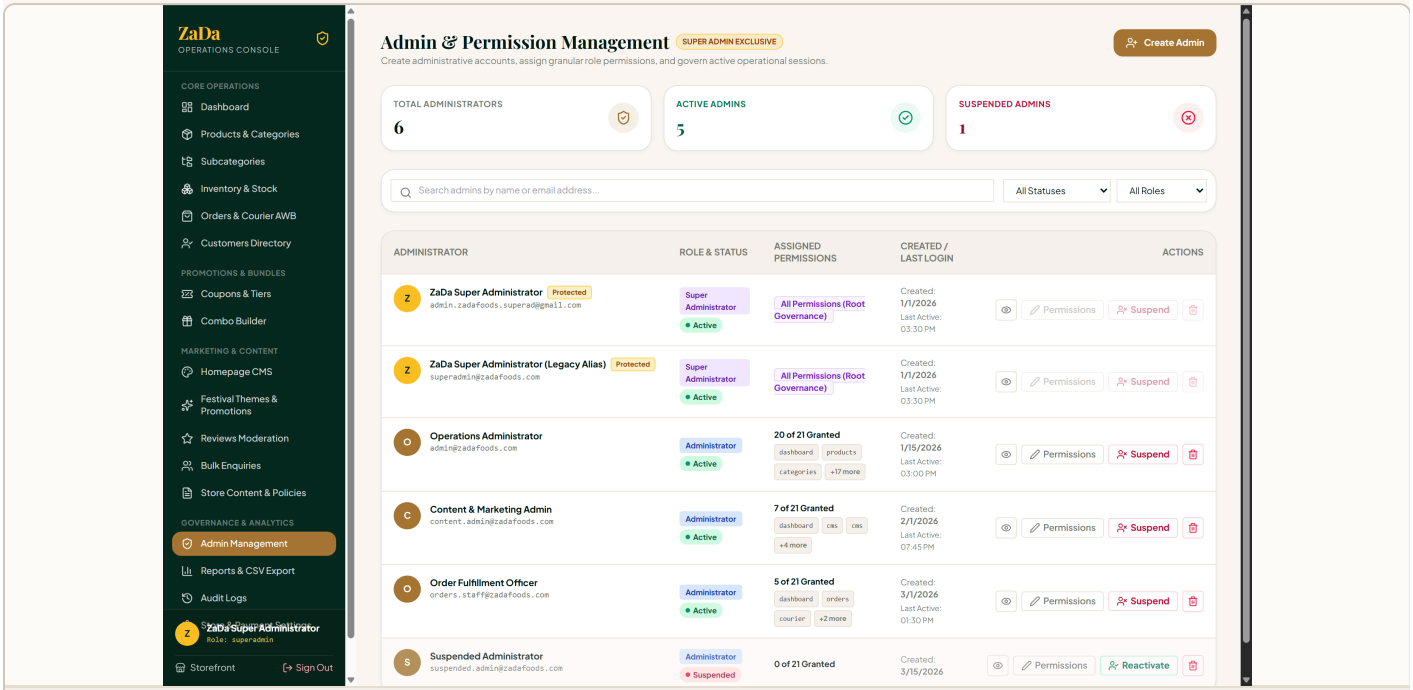

Figure 16.1: Staff Administration console for role assignment and account suspension.

Role Type	What They Can See & Do	Ideal Team Member
SUPER ADMINISTRATOR	Full master access: can change payment keys, manage staff, delete records.	Business Owner / Director
OPERATIONS ADMIN	Can fulfill orders, enter courier AWBs, update inventory, and view customer contacts.	Warehouse / Dispatch Manager
MARKETING ADMIN	Can create coupons, edit CMS banners, activate festival themes, and moderate reviews.	Social Media / Marketing Staff
SUSPENDED	Access completely locked. Cannot log in.	Former employees / inactive contractors

17. Store Logistics, Delivery Charges & COD Advance

Configure your shipping rates, free delivery thresholds, and Cash on Delivery rules in one central panel.

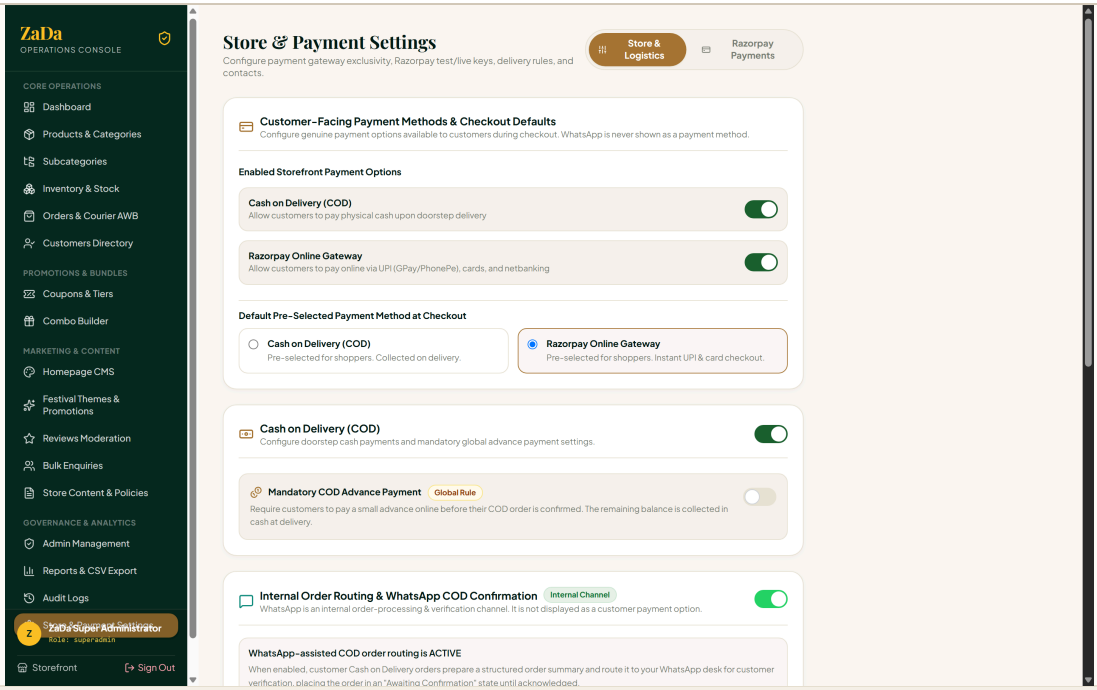

Figure 17.1: Store and payment settings console.

Key Settings Every Store Owner Should Know:

- **Free Shipping Threshold:** e.g. ₹500 (orders above this amount receive free delivery automatically).
- **Standard Delivery Fee:** e.g. ₹40 (applied to orders below the free shipping limit).
- **COD Advance Token:** Optional small online advance (e.g. ₹60 or 15%) paid at checkout to prevent fake COD orders, with the remaining balance collected at the doorstep.
- **Official WhatsApp Number:** Set to 917593959235 (+91 75939 59235) for instant customer routing.

18. Daily & Weekly Store Manager Checklists

Daily Morning Routine (10 Minutes):

- [ ] **Step 1:** Log in to the Admin Console at `/admin`.
- [ ] **Step 2:** Check the **Pending Fulfillment** count on the Dashboard.
- [ ] **Step 3:** Open *Orders*, print packing slips, and hand them to your packing team.
- [ ] **Step 4:** Check *Inventory* > *Low Stock* to see if any spice packs need repacking.
- [ ] **Step 5:** Check *Bulk Enquiries* and respond to wholesale buyers on WhatsApp (+91 75939 59235).

Daily Afternoon Dispatch Routine:

- [ ] Hand over packed cartons to the courier pickup executive.
- [ ] Open each dispatched order in *Orders*, enter the Courier Name (e.g. DTDC) & AWB Tracking Number.
- [ ] Click **"Update to SHIPPED"** so your customers receive tracking updates.

Weekly Monday Review:

- [ ] Audit physical inventory against recorded quantities in *Inventory*.
- [ ] Export the weekly orders CSV from *Reports* for your accountant.
- [ ] Reconcile courier COD remittance settlements against delivered orders.
- [ ] Review customer reviews in *Reviews Moderation* and approve genuine feedback.

19. Frequently Asked Questions & Troubleshooting

Question / Incident	Solution
How do I mark an item out of stock immediately?	Go to *Inventory*, search the item, click Adjust Stock, select **OVERRIDE**, enter `0`, and save. The website disables buying immediately.
Customer says payment succeeded but order is pending?	Check the payment reference ID in the order drawer. If Razorpay confirmed payment, click the Payment Status dropdown, select **PAID**, and save.
How to temporarily pause Cash on Delivery (COD)?	Go to *Store Settings* > uncheck **"Enable Cash on Delivery"** > click Save. Customers will only see online prepaid options.
Customer wants to change their shipping address after ordering?	Open the order in *Orders*, review the address notes, paste the updated address, and ensure the courier shipping label reflects the new destination before dispatch.
Forgot Admin Password?	On the login screen, click **"Forgot password?"**, enter your email, and follow the password reset link sent to your inbox.
