20 Your Daily 10-Minute Routine & Emergency FAQs

01. How to Login & Meet Your Admin Screen

IN SIMPLE WORDS: Think of the Admin Panel as the private back-office of your shop. Customers only see the front shelves, but you sit in the back office to count the money, add new items, and pack deliveries.

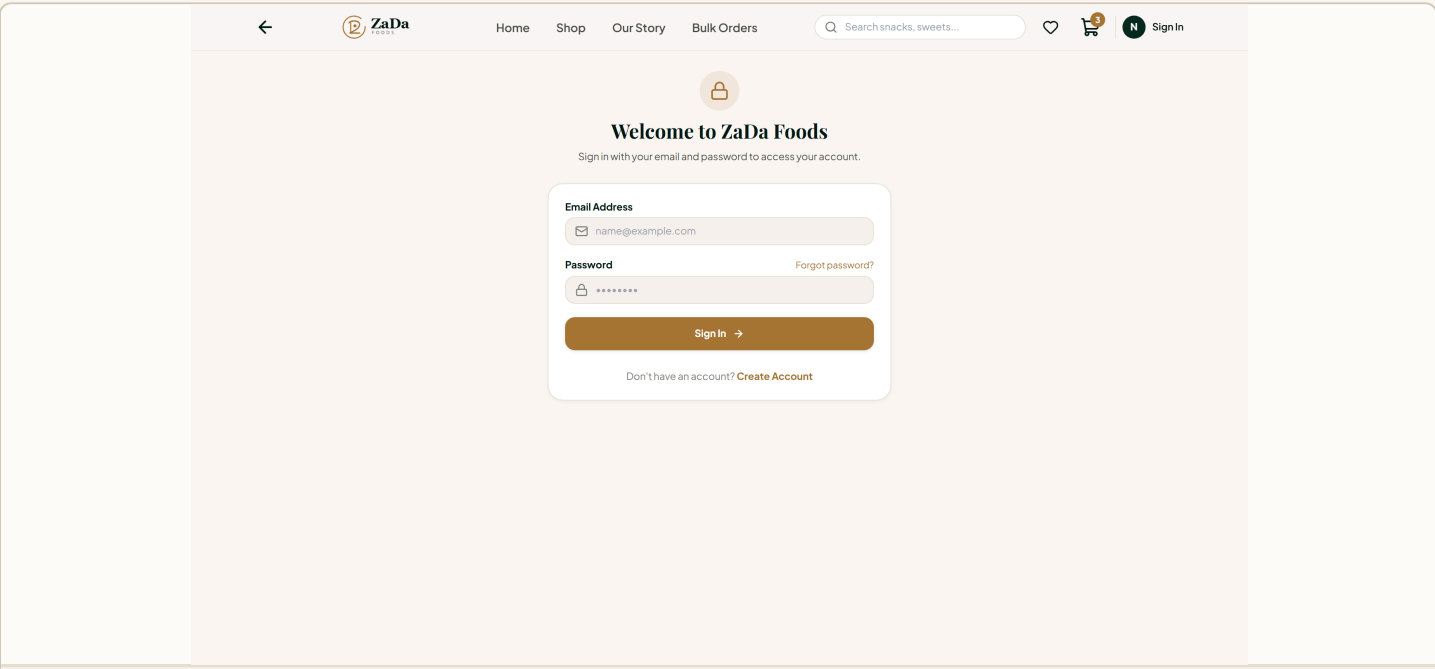

Figure 1.1: The Login Screen. Type your email and password here.

1 **Go to the Website**

Open your browser (on phone or laptop) and type: `yourdomain.com/login` (or `/admin`).

2 **Type Your Admin Email & Password**

Type your store email (e.g. `admin@zadafoods.com`) and your password. Then click the green button that says **"Sign In"**.

3

You're In!

The screen immediately opens your private

Operations Console

. Look on the left side: that dark green bar is your

Menu

where you can jump to Products, Orders, Inventory, and Settings with a single tap.

02. The Dashboard (What Every Box & Number Means)

> **IN SIMPLE WORDS:** The Dashboard is like the dashboard of your car. It tells you your speed, how much fuel you have, and if any red warning lights are blinking.

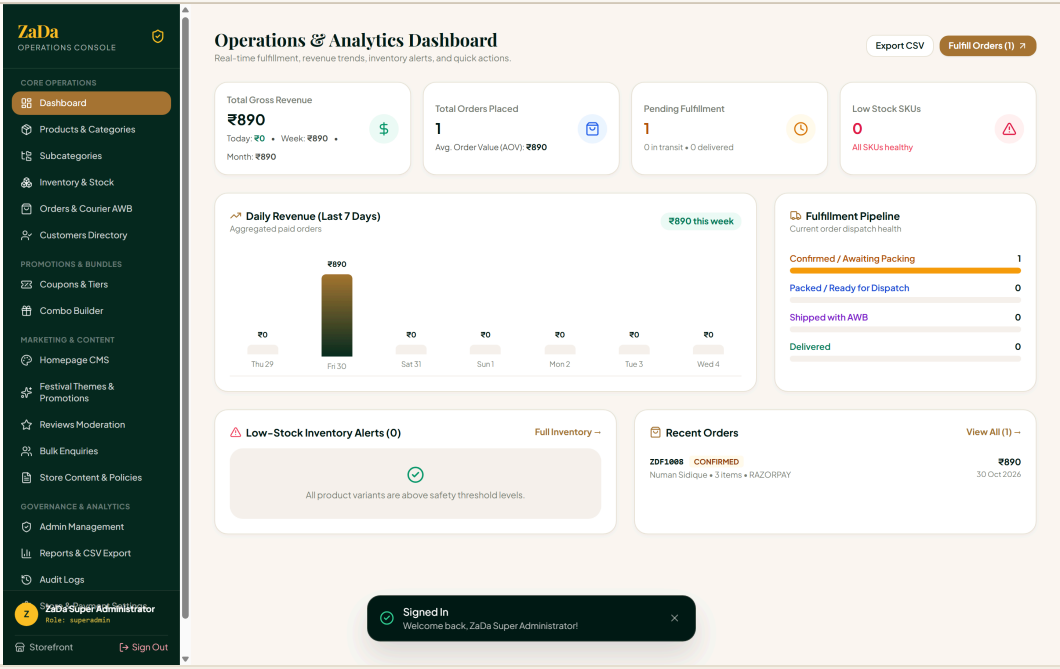

Figure 2.1: The Dashboard screen. Everything important in one glance!

What You See	What It Really Means	What You Should Do
Gross Revenue (₹)	Total money your shop made from all successful orders.	Smile! Your store is growing.
Total Orders	How many times a customer bought something.	Watch this number go up every week.
Pending Fulfillment (ACTION NEEDED **)**	Orders waiting to be packed into boxes and sent to customers!	**Click this immediately!** Pack those boxes and give them to the courier.
Low Stock Warning (LOOK HERE **)**	Items with fewer than 10 packets left in your storage.	Make or pack a fresh batch before the item runs out.

> 💡 **Pro-Tip:** Check the Dashboard every morning at 9:00 AM. If you see a number next to "*Fulfill Orders*", that means real customers are waiting for their spices!

03. Products (How to Add a New Spice or Snack)

> **IN SIMPLE WORDS:** This is where you tell the website what you want to sell. Whenever you make a new batch of cardamom, black pepper, or banana chips, you put it here so customers can buy it.

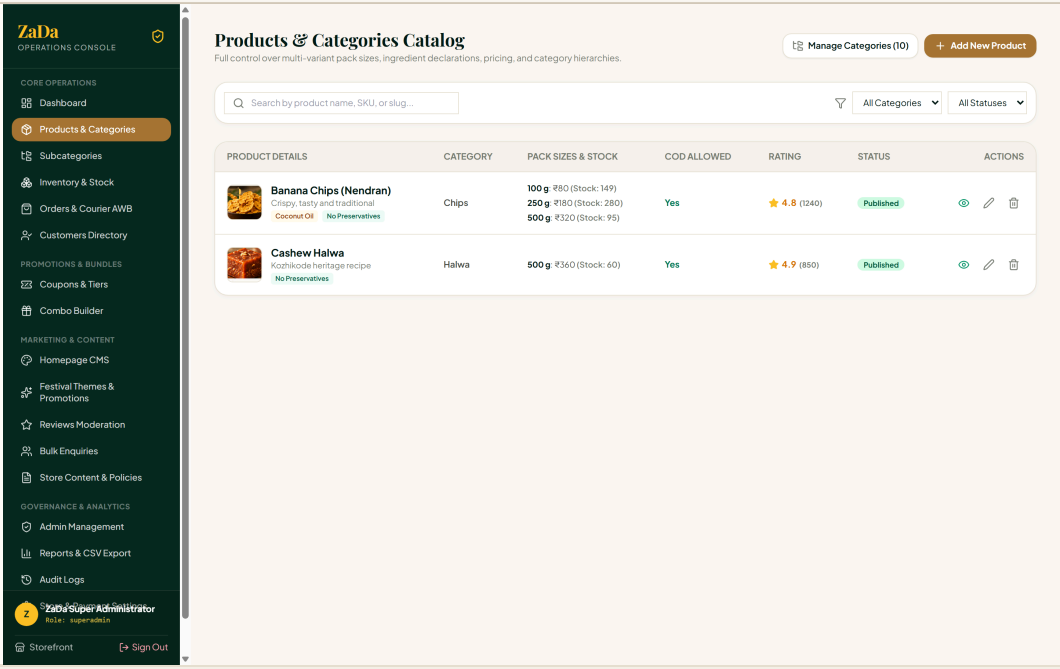

Figure 3.1: Products Catalogue. All your products in a neat, organized list.

How to Add a Product in 5 Simple Steps:

1 **Click the "+ Add Product" Button**

Look at the top-right corner. Tap the gold/green button that says **"+ Add Product"**. A window pops open.

2 **Type the Product Name & Description**

Name: e.g. "*Wayanad Black Pepper (Whole Bold)*".
Description: e.g. "*Freshly hand-harvested black pepper from the misty hills of Wayanad. Sun-dried with intense aroma and authentic heat.*"

3 **Pick the Category**

Choose **Spices & Blends** or **Authentic Kerala Snacks** from the dropdown.

4

Set Pack Sizes (Weight Variants) & Prices

Click **"+ Add Variant"** to set sizes:

- **Weight:** Type `250g` (or `500g`, `1kg`)
- **Selling Price:** What customer pays (e.g. `₹280`)
- **MRP (Crossed Out):** Normal price (e.g. `₹320`). The website automatically calculates a discount tag!
- **Stock:** How many packets you have ready (e.g. `50`)

5

Click "Save Product"

Tap the big green **"Save"** button. That's it! Open your website on your phone, and your new product is live for anyone in India to buy!

⚠️ **What NOT to do:** Never delete a product if you just ran out of stock. Instead, just set stock to `0`! That way you don't lose customer reviews or product photos.

04. Subcategories (How Items Are Organized)

> **IN SIMPLE WORDS:** Think of a grocery store. Spices are in one aisle, snacks are in another. Subcategories are the shelves inside that aisle so customers don't get lost.

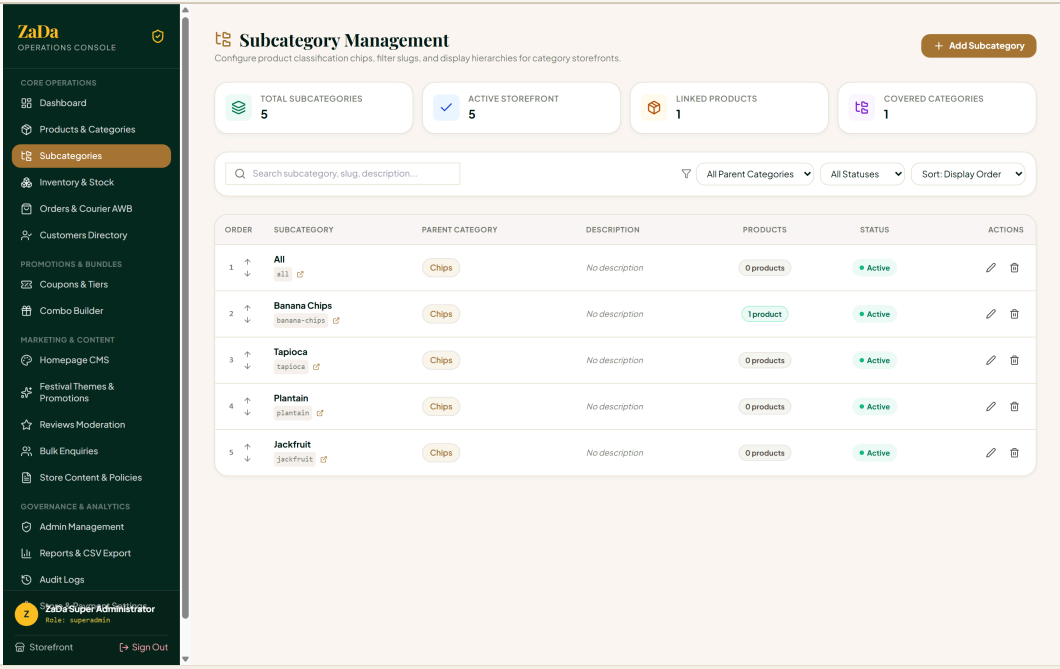

Figure 4.1: Managing your shelves: Whole Spices, Ground Spices, Traditional Masalas.

ZaDa Foods has 3 main parent categories:

- **Spices & Blends:** Has subcategories for *Whole Spices* (Pepper, Cardamom, Cloves), *Ground Spices* (Turmeric, Chilli), and *Traditional Masalas* (Fish Curry Podi, Sambar Powder).
- **Traditional Ingredients & Essentials:** Pure Cold-Pressed Coconut Oil, Malabar Kudampuli (Tamarind), Seasoning salts.
- **Authentic Kerala Snacks:** Nendran Banana Chips, Spicy Banana Chips, Sharkara Upperi (Jaggery chips).

05. Inventory & Stock (How to Change Stock in 3 Clicks)

> **IN SIMPLE WORDS:** When you pack a new batch of 30 packets, you come here and add 30. When customers buy online, the website automatically subtracts them. You never have to do math in your head!

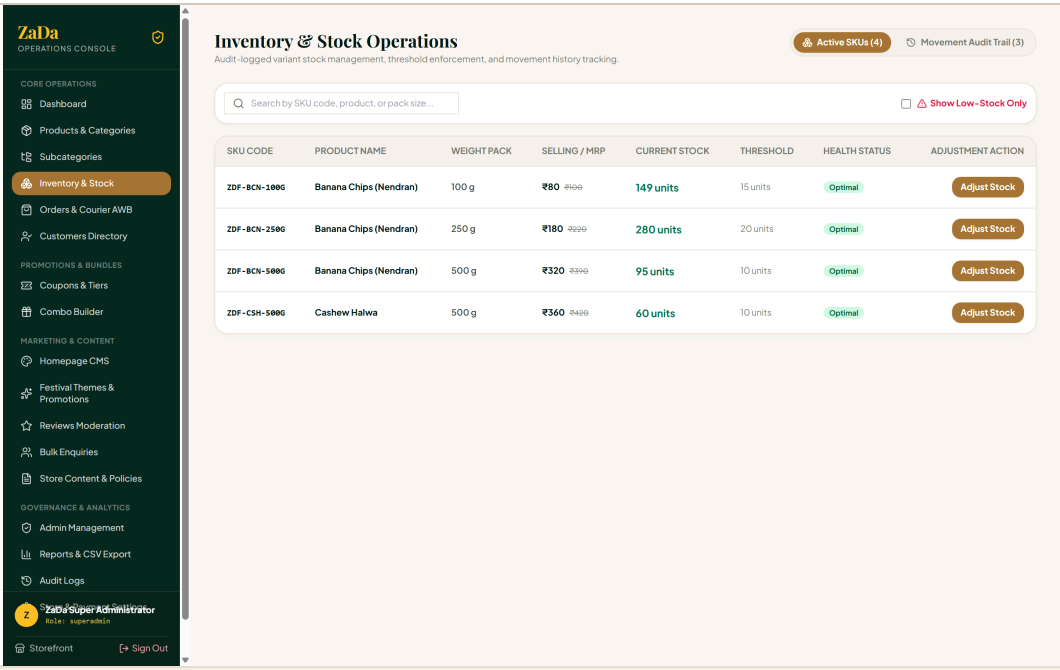

Figure 5.1: The Inventory screen. Look at the color badges: Green, Yellow, Red.

Badge Color	Stock Level	What the Customer Sees Online
IN STOCK	11 or more packets	Green badge: "*In Stock — Fresh Batch Ready*". Customer can order freely.
LOW STOCK	1 to 10 packets	Yellow urgency badge: "*Only X left in stock!*" Prompts customer to buy fast.
OUT OF STOCK	0 packets	Button changes to "*Out of Stock*" (disabled). Protects you from taking orders you don't have!

How to Update Stock When a New Batch Arrives:

1 **Find the Item**

Type the product name in the search bar on the Inventory page.

2 **Click "Adjust Stock"**

Select **ADD**. Type the number of packets you just made (e.g. 25).

3 **Click "Save"**

Done! The website immediately updates the stock count.

06. Orders (From Customer Click to Courier Box)

> **IN SIMPLE WORDS:** When a customer buys on your website, a new order appears here immediately. This screen tells you their name, phone number, address, and what spices they ordered.

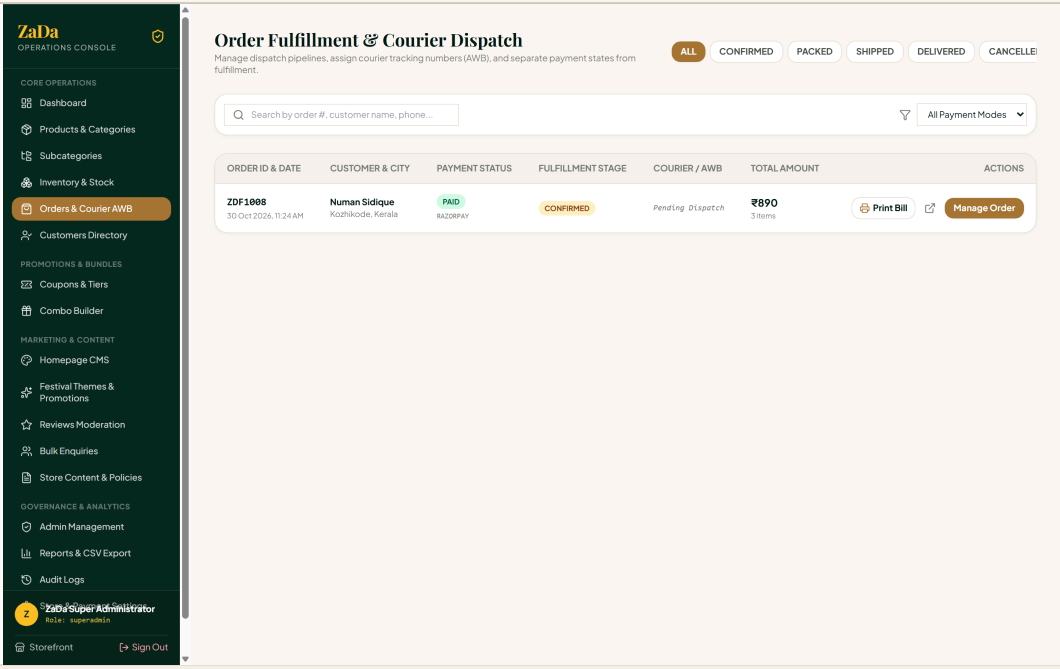

Figure 6.1: The Orders list. Click on any row to open the customer's order.

The 5 Steps of an Order's Life:

1. **PENDING**: Order just arrived. You check that payment is verified.
2. **CONFIRMED**: Payment is confirmed! Send the order details to your packing team.
3. **PACKED**: Spices are weighed, air-tight sealed, and packed in a clean corrugated cardboard box.
4. **SHIPPED**: You gave the box to DTDC / Delhivery / India Post. You put the tracking number here.
5. **DELIVERED**: The courier handed the box to the customer. All done!

07. How to Dispatch & Put Courier Tracking (AWB)

> **IN SIMPLE WORDS:** Customers love tracking their parcel. When you hand the parcel to DTDC, they give you a receipt with a number (like `DT123456789IN`). Put that number here, and the customer can track their box live on their phone!

1 **Click the Order in the List**

Tap on the order row. The details panel slides out from the right.

2 **Select Your Courier**

Pick from the dropdown: *DTDC Express, Delhivery, India Post, or Blue Dart*.

3 **Paste the Tracking Number (AWB)**

Type or paste the tracking code from your courier receipt.

4 **Change Status to "SHIPPED" and Click Save**

The system automatically updates the customer's tracking screen!

08. Printing Invoices & Packaging Slips

> **IN SIMPLE WORDS:** Every parcel needs a bill inside. With one click, your computer prepares a beautiful, professional A4 invoice with your FSSAI number (21326145000345) and store address.

1. **Click the "Print Bill" Button on the Order**
   Look for the button with the printer icon. Click it.

2. **Print or Save as PDF**
   Your browser print window opens. Click **Print**. Put this bill inside the parcel, and stick the shipping address on the outside of the box!

09. Customer Directory (See Who Bought What)

> **IN SIMPLE WORDS:** This is your digital customer phonebook. It keeps track of all your repeat buyers, their total spend, and delivery addresses.

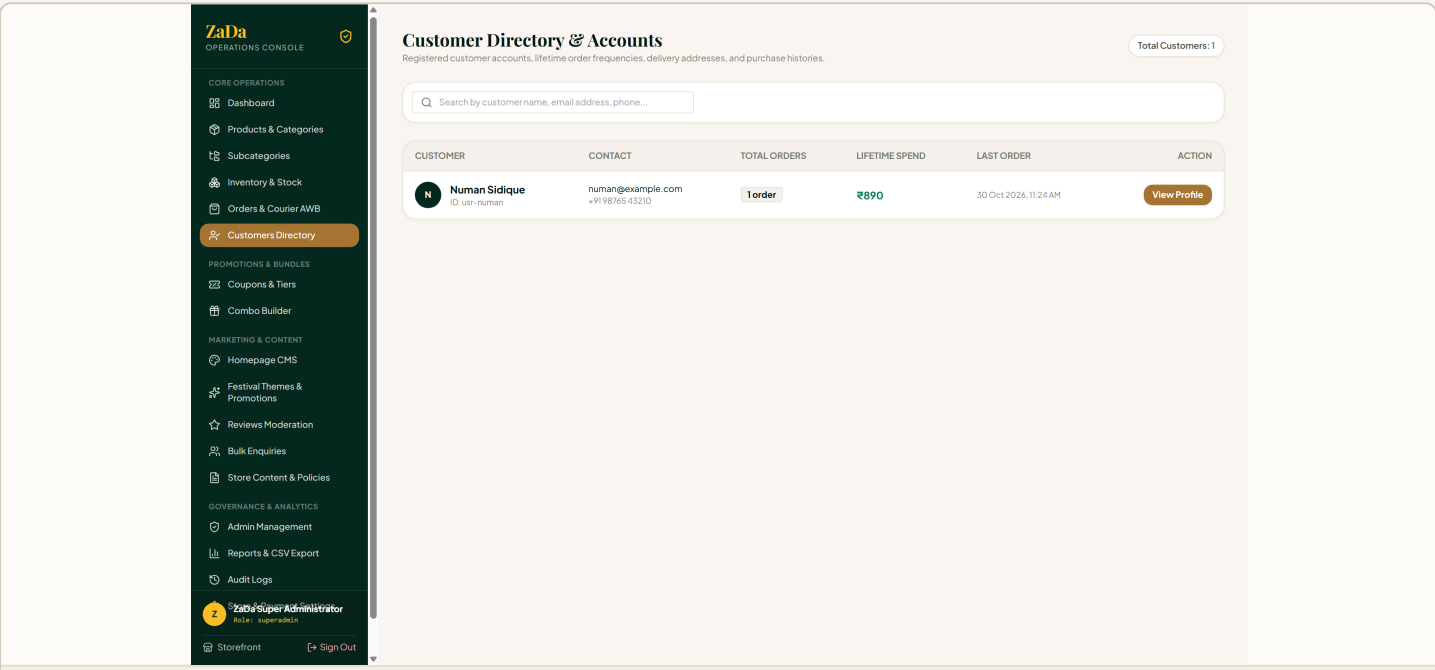

Figure 9.1: The Customers Directory. Find any customer in seconds.

If a customer calls you saying: "*Hi, I ordered black pepper last month, I want the same one again!*" — just type their name or mobile number in this search bar. You will immediately see their past orders and favorite items!

10. Coupons (How to Make a Discount Code)

> **IN SIMPLE WORDS:** Want to run a festival sale? Create a coupon code like `DIWALI10` or `FREESHIP` in 4 clicks.

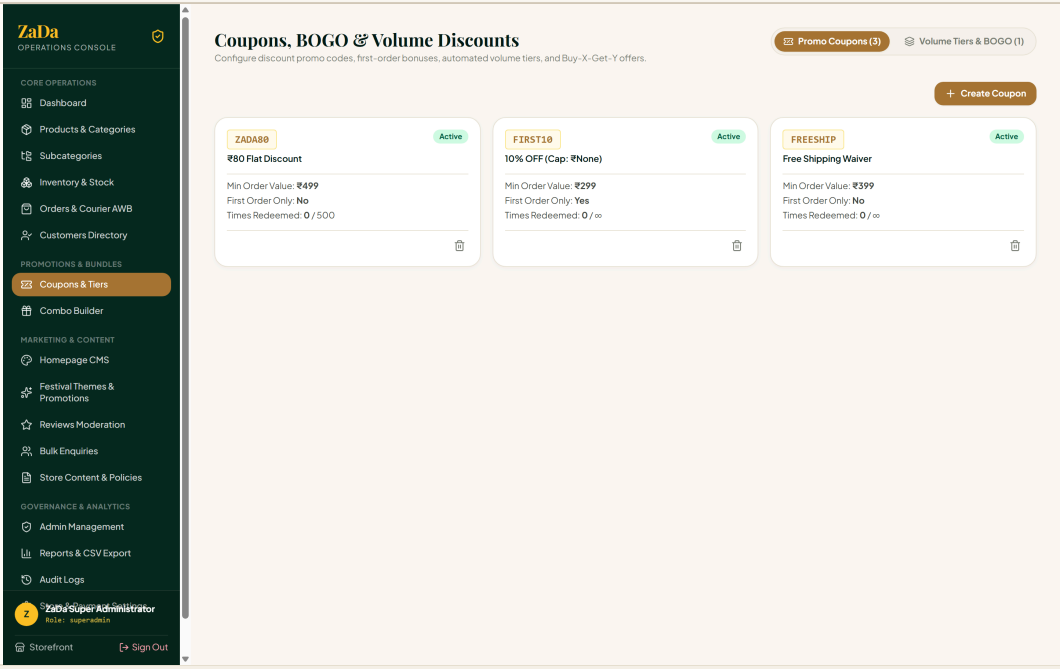

Figure 10.1: Coupons and discount rules table.

How to Create a New Coupon:

1 **Click "+ Create Coupon"**

Located at the top right of the Coupons page.

2 **Choose Your Code Name**

Type in CAPITAL LETTERS without spaces, e.g. `FESTIVE15` or `KERALA50`.

3 **Pick the Discount Type**

- **Percentage (%):**
  e.g. 15 (gives 15% off).
- **Flat (₹):**
  e.g. 50 (gives ₹50 off the bill).

4 **Set Minimum Cart Value**

Type 499 so the customer must buy at least ₹499 worth of spices to use the discount!

11. Combo Packs (Selling 3 Spices in a Gift Box)

> **IN SIMPLE WORDS:** Instead of selling 1 spice at ₹180, bundle Cardamom + Black Pepper + Turmeric in a "Kerala Culinary Spice Box" for ₹650. Customers love gift boxes, and your sales jump higher!

Figure 11.1: The Combo Builder screen for making multi-pack bundles.

12. Homepage CMS (Change Banners Without Code)

> **IN SIMPLE WORDS:** You don't need a software programmer to change the pictures or headings on the website. You can do it all right here with a simple click!

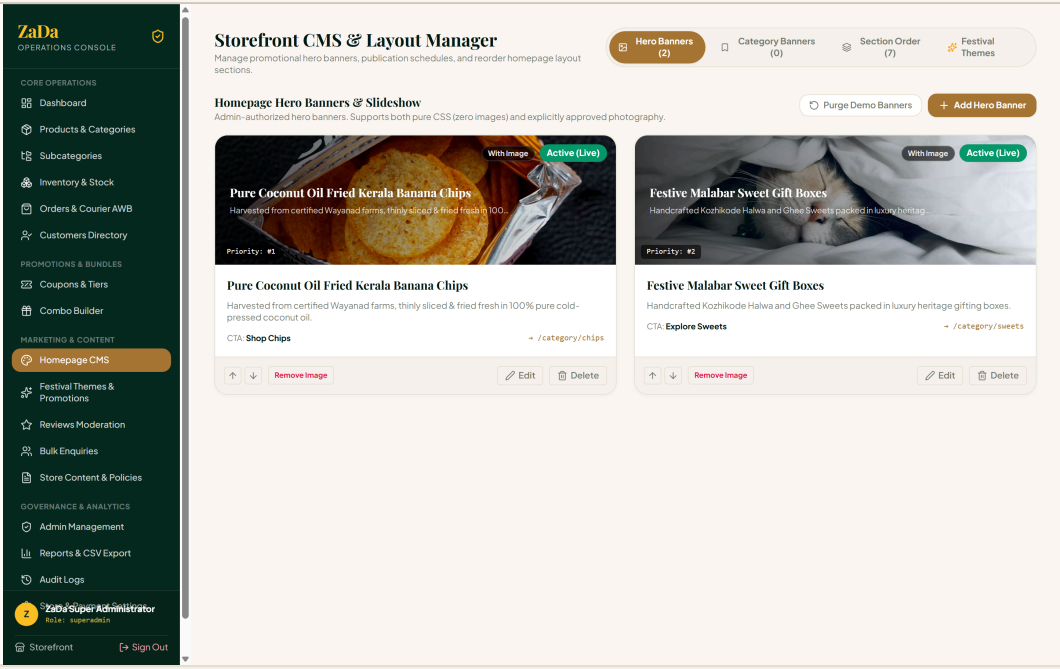

Figure 12.1: Homepage CMS. Change hero banner slides, titles, and buttons.

1 **Click "Hero Banners"**

You will see the active slides running on your homepage.

2 **Click "Edit" on Any Banner**

Change the main headline (e.g. "*Authentic Wayanad Hill Spices*") and change the button link to `/shop`.

3 **Click Save**

The homepage updates instantly. No computer reboot or code change required!

13. Festival Themes (Turn on Onam/Diwali with 1 Click)

> **IN SIMPLE WORDS:** During Onam, Vishu, or Diwali, you can dress up your website with festive gold ribbons, celebration greetings, and festival offers in 5 seconds.

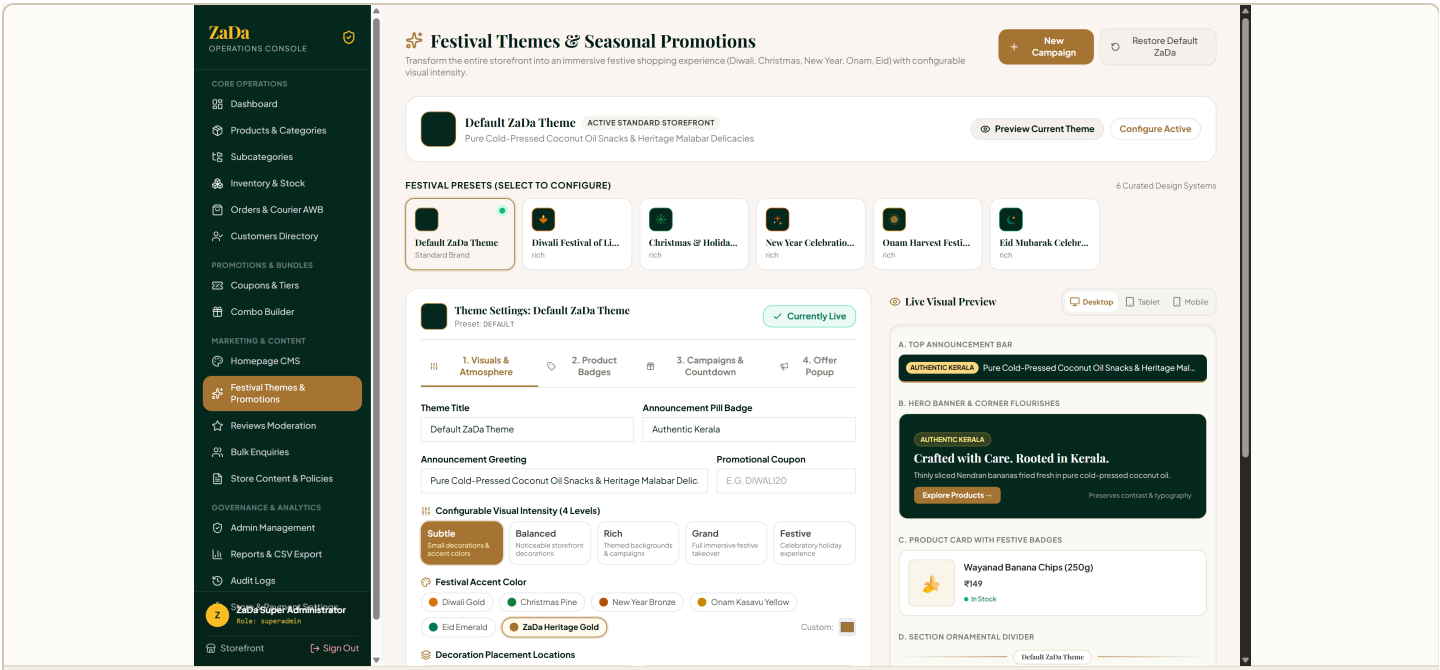

Figure 13.1: 1-Click Festival Themes: Onam, Vishu, Diwali, Christmas.

To turn on a festival: Click **"Activate Theme"** next to Onam or Diwali. When the holiday finishes, click **"Deactivate"** to go back to the standard green and ivory theme!

14. Customer Reviews (Approve Good Ones, Block Spam)

> **IN SIMPLE WORDS:** When customers write reviews on your spices, they wait here first. You read them, approve the genuine ones, and block any inappropriate or spam messages before the public sees them.

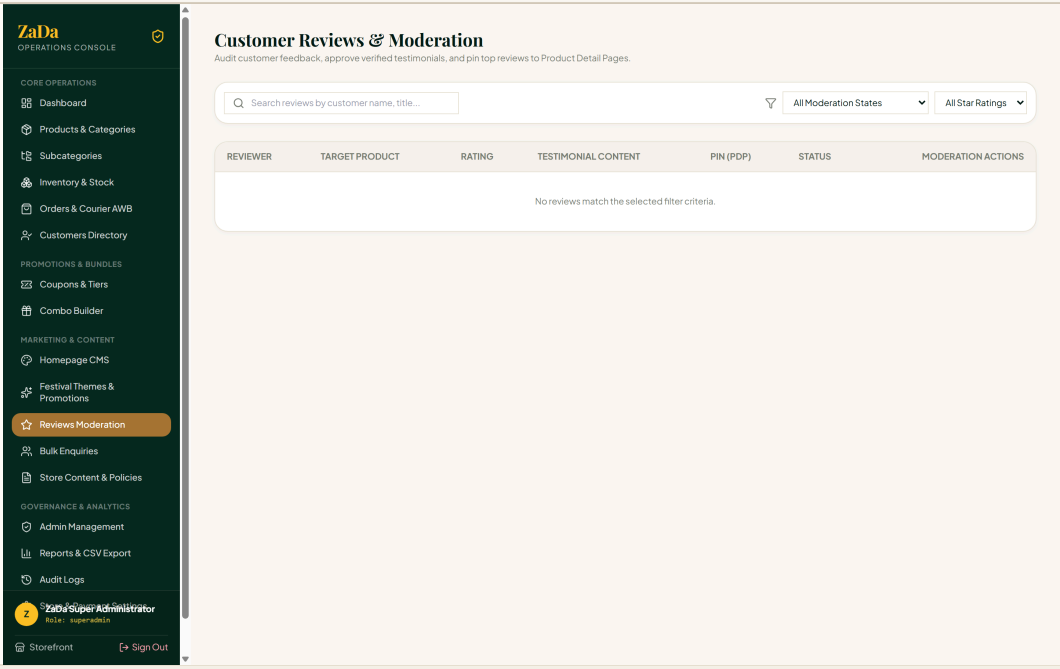

Figure 14.1: Review Moderation Queue. Click green checkmark to approve!

15. Bulk Orders (Wholesale & Wedding Inquiries)

> **IN SIMPLE WORDS:** When a restaurant, caterer, or wedding planner wants 50 kg of spices, they fill the Bulk Order form. Their message lands here with their phone number so you can call them directly!

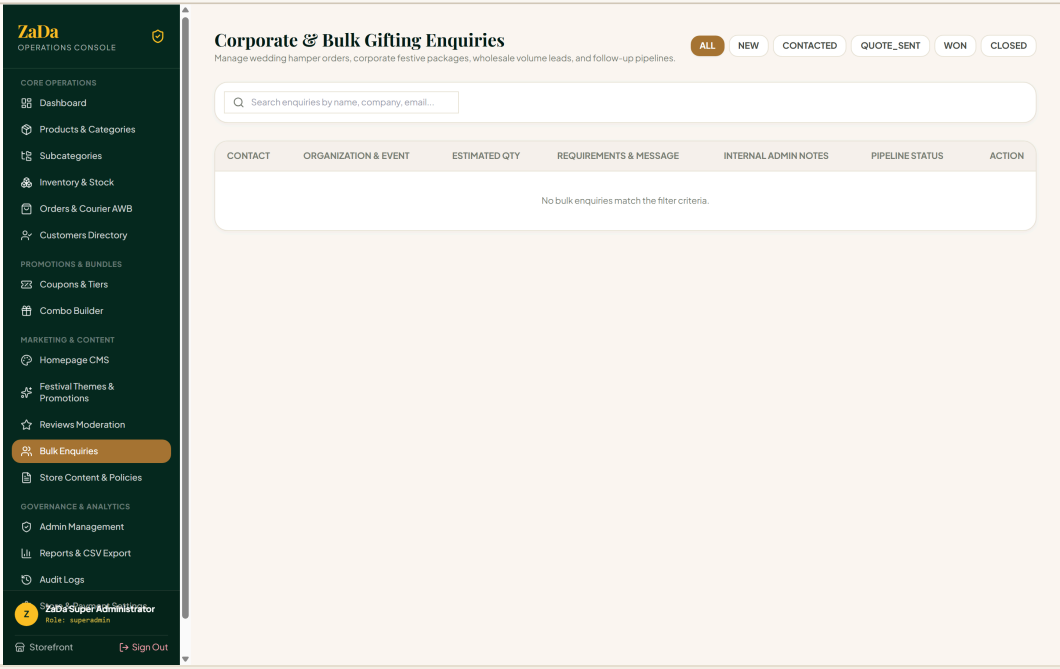

Figure 15.1: Bulk wholesale enquiries inbox.

📞 **Action:** When a bulk lead comes in, click their phone number to call them or tap WhatsApp (+91 75939 59235) to send a wholesale quote.

16. Reports & CSV (Give This to Your Accountant)

IN SIMPLE WORDS: At the end of every month, your accountant or tax advisor needs your sales figures for GST filing. Instead of typing everything manually, click one button here and download an Excel spreadsheet!

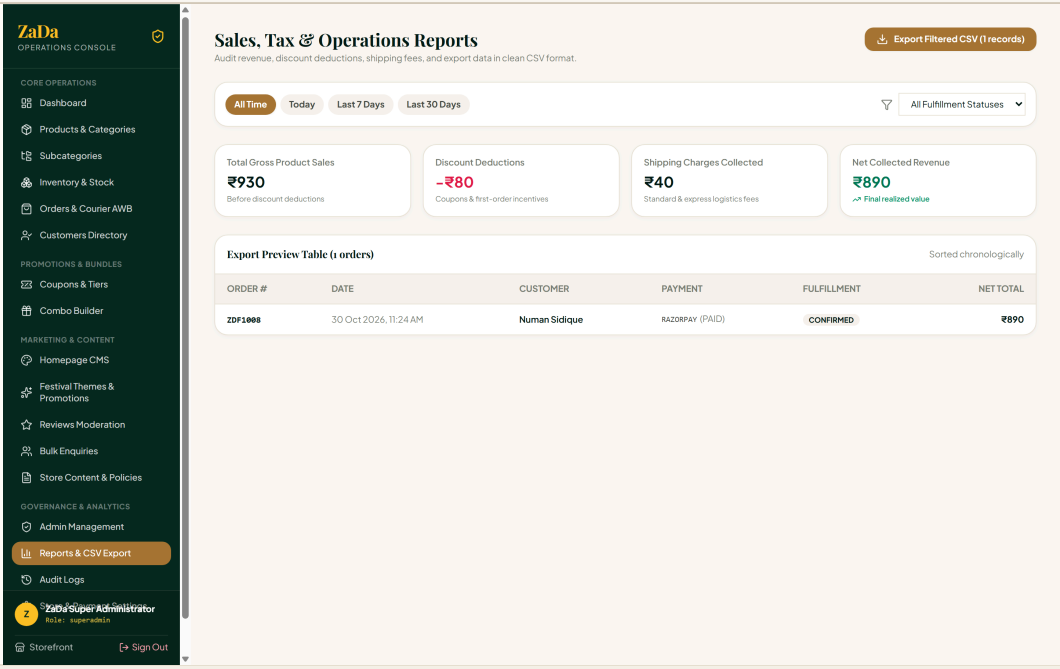

Figure 16.1: Monthly revenue graphs and the green "Export Orders CSV" button.

17. Staff Accounts (Give Access to Workers Safely)

IN SIMPLE WORDS: Never share your master Super Admin password with anyone. Instead, create a separate login for your warehouse staff so they can only see orders and packaging, without seeing bank settings!

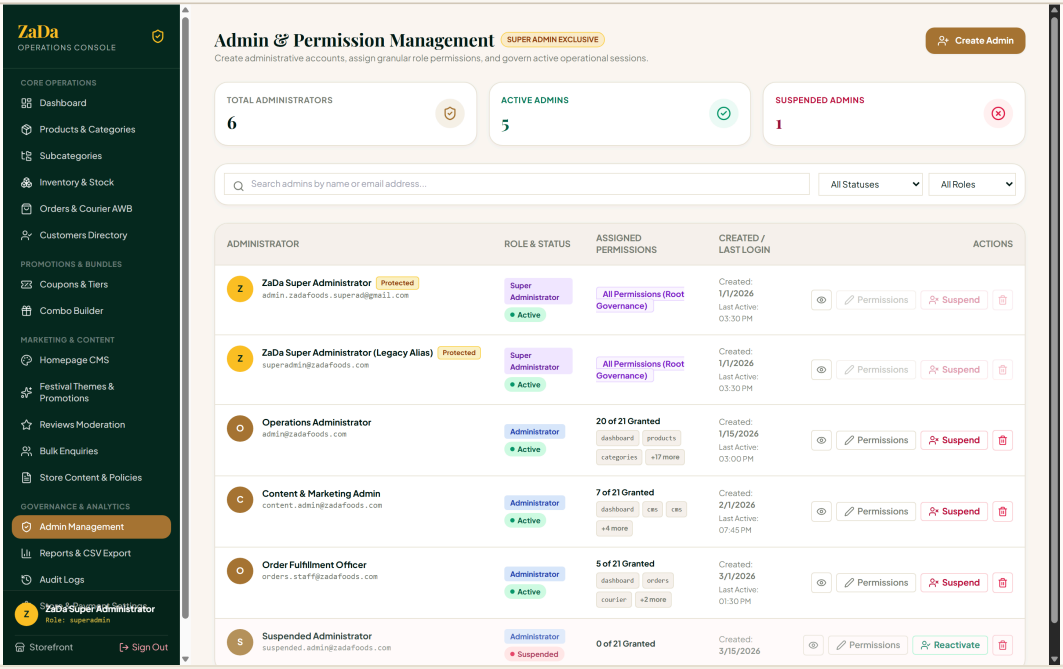

Figure 17.1: Staff Administration and role permissions.

Role	What This Person Can Do	Who Should Have It
SUPER ADMIN	Everything! Can change bank keys, add/remove staff, delete items.	Store Owner / Primary Director only
OPERATIONS ADMIN	Can see orders, pack items, enter tracking AWBs, adjust stock.	Warehouse Manager / Packaging Staff
MARKETING ADMIN	Can create coupons, edit banners, activate festival themes.	Social Media / Marketing Executive

18. Store Settings (Delivery Fees & WhatsApp Number)

> **IN SIMPLE WORDS:** This is where your store rules live: Free delivery threshold, standard shipping charge, and your official WhatsApp customer support number.

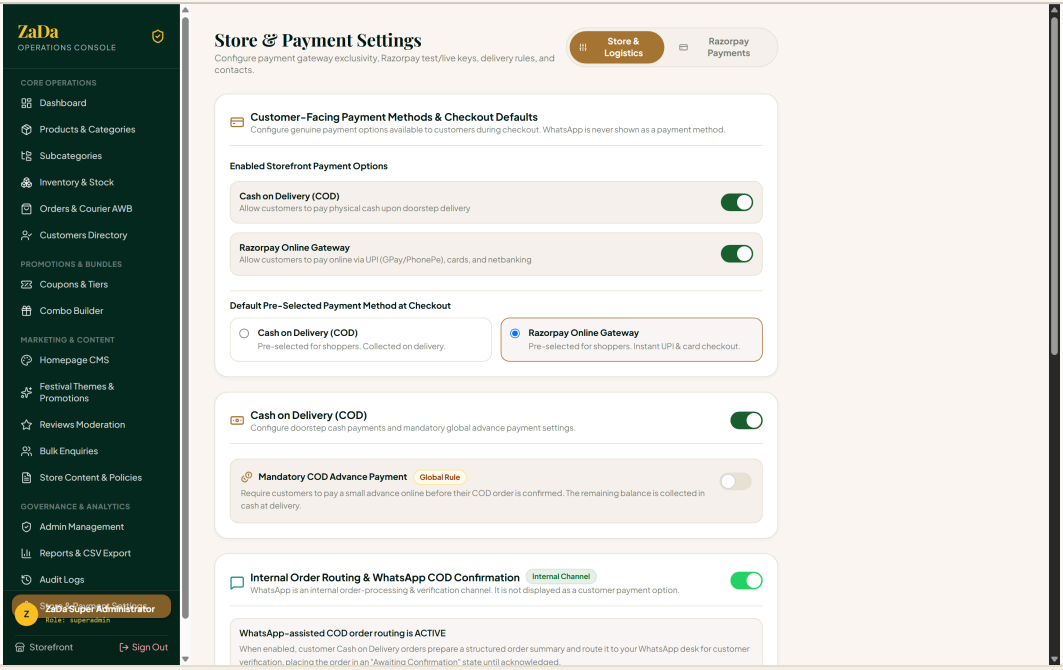

Figure 18.1: Store and payment settings console.

📌 **Your Store's Official Rules:**

- **Free Shipping:** Automatically given on orders above **₹499**.
- **Standard Delivery Fee: ₹40** on orders below ₹499.
- **Official WhatsApp Number:** +91 75939 59235 (All customer help messages go here).
- **Official Support Email:** `Zadafoods4@gmail.com`
- **Official FSSAI License:** `21326145000345`
- **Official Manufacturer Address:** ZADA FOODS, Punalur, Kollam (Dist), Kerala – 691305.

19. Your Daily 10-Minute Routine (Cheatsheet)

1. **09:00 AM — Morning Check (3 Minutes)**
   Log in at `/admin`. Click **Orders**. Look for orders marked *CONFIRMED*. Click **Print Bill** for each one and give them to your packing team.

2. **11:00 AM — Stock Check (2 Minutes)**
   Click **Inventory**. If any item is in Yellow or Red, schedule a fresh packaging batch.

3 **04:00 PM — Courier Dispatch (5 Minutes)**

When the courier pickup arrives, open each order, type the AWB tracking code, and set status to **SHIPPED**. Done for the day!

20. Emergency FAQ ("What do I do if...?")

Problem	Simple 10-Second Solution
I ran out of an item today physically!	Go to *Inventory* > Adjust Stock > Select **OVERRIDE** > Enter `0` > Save. Website stops selling it immediately.
Customer says they paid online, but order says Pending?	Open the order. If Razorpay says payment captured, change Payment Status dropdown to **PAID** and click Save.
I forgot my admin password!	On the login screen, click "*Forgot password?*". Type your email and check your inbox for the reset link.
Customer gave wrong address and wants to change it?	Open their order. Read the new address from their WhatsApp message. Write the new address on the courier shipping label!
